20 x 24"			£255	£150	£255
30 x 24"			£320	£210	£320

All our portrait prints under this category are printed on the Durst Lambda printers which give unrivalled quality and akin to the hand-printing quality of the bygone age printing from film.

Matted prints come with a 2" white bevel edge cut art mount board, ideal for giving as presents.

Framed prints the sizes quoted are for the prints, we mount the prints onto boards with an overall 2"(approx.) bevelled edge. The frames use the highest quality durable mounting materials as seen in many art galleries thus protecting the print for years to come, while at the same time reducing the impact of the process on the environment.

Block Mounted prints are finished with a flush edge on 18mm block board. They have a contemporary look for clean cut presentation, so the image gives maximum impact. They are finished with matt film to protect the print from environmental damage.

Digital Files Only Service

All files from the portrait session on CD £330.00

Outdoor Portraits

Summer is in the air, to make the most of the weather and the summer light how about a location shoot in a pre arranged outdoor spot where we photograph you for an hour. We bring all our professional equipment necessary to create timeless images.
